I'm posting out of order;)

Hit play, then Shift-space bar to punch in, repeat to punch out.

JamesI own it, as well as Amplitube 2, Logic Guitar Amp, Nigel, and Amp Farm 3.

Amplitube 2 blows them all away, with Amp Farm III coming in 2nd (but it's TDM only).

AT2 responds to your playing much more like a tube amp does.

Guitar Rig II is decent, the effects are nice, but there's no comparison.

Cheers,

TC

I'm gonna check DJs garbage can and see what he's throwing out.

If you have any extra CPU cycles in that Geforce, you might want to check
this out.

http://tinyurl.com/nmm3p
GeneAn interesting and enjoyable read.

http://www.ethanwiner.com/believe.htmlHi guys,

I've been away from Paris for a while, but have decided to integrate it back into my setup again for summing stems and quick mastering from PT HD/Digital Performer.

Right now I've got one card set up, and am getting the following effects:

1 compressor (mono) insert
1 no limit (mono) insert
1 pseudo (stereo) insert on 2 buss
1 no limit (stereo) insert on 2 buss

It's telling me that my EDS resources are maxed for this card. I don't ever remember getting this little out of one card, even on inserts.

Just wondering if this sounds correct?

Cheers,

TCThe NoLimit is the culprit here. It uses a lot of EDS resources. I'd say you're "legitimately" maxed out.

DJ
