gled information spewed from the hole.

- >
- > "A super-massive black hole lies about 28,000 light-years from Earth at  
the
- > center of our galaxy," explained Dr. Sherwinski.
- >
- > "Last year the eminent physicist Stephen Hawking revised his theory of  
black
- > holes -- which previously held that nothing could escape the hole's  
powerful
- > gravitational field. He demonstrated that information about objects that  
> have been sucked in can be emitted in mangled form.
- >
- > "It now appears that mangled information can distort matter.
- >
- > "Just imagine our galaxy the Milky Way as a beautiful, handwritten letter.
- >
- > "Now imagine pouring a glass of water on the paper and watching the words  
> dissolve as the stain spreads. That's what the chaos cloud does to every  
> star or planet it encounters."
- >
- > To avoid widespread panic, NASA has declined to make the alarming  
discovery
- > public. But Dr. Sherwinski's contacts at the agency's Chandra X-ray  
Observatory
- > leaked to him striking images of the newly discovered chaos cloud  
obliterating
- > a large asteroid.
- >
- > "It's like watching a helpless hog being dissolved in a vat of acid," one  
> NASA scientist told Dr. Sherwinski.
- >

> Ordinarily, Hawkings Radiation is harmless.  
>  
> "It's produced when an electron- positron pair are at the event horizon of  
> a black hole," Dr. Sherwinski explained. "The intense curvature of  
space-time  
> of the hole can cause the positron to fall in, while the electron  
escapes."  
>  
> But when "infected" by mangled information from the black hole, the  
particles  
> become a chaos cloud
