note =
that
  there are a number of deceased performers on the list. If you know any
  surviving relatives, let them know about this.

  This money belongs in the hands of the artists who created the music.

I choose Polesoft Lockspam to fight spam, and you?

ed if I'll really sell and at what price, I'll put it in
the forsale group, of course. This posting is rather a request to help me
make my decision than a "for sale" posting, that's why I put it here.

Thanks,

Sascha
Cologne/GermanyDJ.....Very sorry to hear of your loss. He seemed amazing!

I too, lost a bandmate, and dear friend, and the audiio industry lost out
on on a High Fidelity advocate!

Dean Roumanis worked at Krell manufactuing, running the whole operations of the company. He was the COO and part owner. Krell, of course, makes high end high fidelity components.

He also had a duo wherre he played bass with a guitar player and they did some innovative, creative music.

He also played piano and keys with me. You can actually see and hear him playing at my concert, since I put up a clip of one of the pieces on my site.

Here is an obituary fo
