rget="_blank">chrisl@adkproaudio.com I heard that the Great Spaghetti monster came down and
peed on the server
causing untold havoc. And lots of guys slapping their desks in frustration.
If you listened to the wind, you could hear the chant for the return of our
electronic daily fix.

I think they were getting sued by Apple, but the prices were great. They
had three different models I think. You could also triple boot them with
Linux, Win and OSX.
