>I bought one back in October and have been too busy to unbox it until today. Terrible QC. Surfaces were predrilled exactly backwards and hardware assembly components were missing. It would have cost me more in time that it was worth to box it back up and ship it back so I redrilled it and went to Home Depot because I needed to finish this project, but I'm pissed off and would never buy another one of these. It's a good design once it's properly assembled though and I could put one together like this quick and for about \$20.00 with just a little more effort than I spent getting this one up to speed.
