What you should do is (assuming you have v2.x installed):

1) Go to the where the PARIS application is (usually C:\Program  
Files\Ensoniq\PARIS", Copy the whole PARIS folder to another location  
(copy, not move)

2) Remove 2.x from Add/Remove panel (th

I'm going to upgrade my home-studio with a new pci-system.

Jorsil sold one to a Parisite named will wilson about 3 years ago. You might search the archives and see if you can find him.

>Hi Chris,

How long have you been using the machine? Did it just start doing this?

Also if you are using 2 sticks of 512 ram try reducing it to one stick

and see if it is still doing it.

If that makes a difference then try one stick at a time in the first slot.

How many EDS cards are in the system?

Chris
