names.

Lots of interesting stuff on AMDZone disputing claims by Intel of superior performance. Lots of it looks credible to

ell, I REALLLLLLLLLLYYYYYYY want to plan another one later
in the year when I have a bit more cash and some actual days off
accrued. I'm so pissed that I have to miss this shindig - I've been
friends with youse guys for years now and have yet to actually meet
anyone face-to-face....

I've seen a demo of Digi's Venue system with a Show Control surface.
Pretty damn slick. All the I/O
