ems are factory refurbished, and all of the items were acquired at the factory during an employee-only sale. Most of the boxes were factory sealed until today, but there have been some curious shoppers, so now quite a few of the boxes have been opened to inspect contents. All of the items are unused by me. I had intended to put a large Paris system to

gether, never
did, and have since moved on to another platform. My loss, your gain.

The items:

- # 1 "Bundle 3" - consists of one each * MEC chassis (with standard I/O) * C-16 control surface * EDS-1000x computer card. The color is BLACK.
- # 2 more C-16 control surfaces, both BLACK
- # 4 of the 442 I/O interfaces * 2 are in boxes with cables * 2 are unboxed without cables
- # 2 Paris "Concept", model 3519-D - these are an EDS card without effects, with the 2 channel "IF2" I/O, and software
- # 2 ADAT modules for the MEC, model 3528, BLACK

All of these it

ems are unused, and therefore untested by me, so they must be sold AS IS. I can assure you, though, that these items, except where noted above, are packaged as from the factory.

----Hello group,

I am new here, introduced by a good friend who is an avid Paris system user.

I am looking for an EDS 1000 and a decent mic preamp. If you have one lying around, drop me a line we can chat.

Thanks for your help

PaulSorry,

My e-mail is pud1@rogers.com

>Hi again,
Last chance for my Paris stuff. It's all up in a single auction on eBay.
Ends this Friday. No reserve. Current bid is \$349 (gulp), which is darn
low, as the ADAT modules alone are selling for \$200 apiece on the street,
and I've got 2 of 'em!
Thanks for looking,
Bob
