The files are Winamp Media Files which are mp3s. =20

I want to lay guitar tracks over Steely Dan covers for him. =20

Can I make them individual wavs with either Paris, strip wav or
Wavelab 3.0?

He can send me the individual wavs and I can convert those but we're=20
trying to save a step for him I guess...

TyroneNeil has some great suggestions already.
 The Fender Twin was the amp used with the rhodes, thus
 also sounds good on the Wurli. Also, try the Vox AC30 on the Wurli.

As far as B3's go, as Neil said, go with the Bassman or some
 big ol' bass cabinet such as the ampeg.
 Let us know what you end up using, and what sounded best.
