ay stuff...

I hope you'll watch it tommorow.

Thanks for all your support over the years!

Cheers!

And what was the other BFD one? Didn't someone else bring out a similar thing?

What was the name of that one the other week someone (Deej?) posted which you jam along with?

Cheers,  
Kim. Showed up this morn for a heavy day of tracking, I notice the Paris box froze

ommercial mixes on my car stereo and it really sounds better than some, not quite as good as others so I'm in the commercial ballpark, so to speak.

He's got 1000 blank silk screened CD's, jackets and jewel boxes already. We're going to burn 200 CD's for the release party tomorrow night. It's a benefit for the Red Cross and there are going to be three radio stations and a lot of folks there. I won't feel bad about selling the CD's with the mixes as they stand right now at the party tonight but the client is going to Hawaii for two months on March 15th so I'm going to have some more time to really polish this project before the first large run which will be done by a local studio here once I'm done. I'm getting a \*per unit\* royalty on this so, there's more of a payoff to getting this right than just massaging my ego. This guys a touring musician and it will be getting quite a bit of exposure. I want him to have a \*great\* product.

Man, I'm tired. This deadline stuff really does hone your chops and basically \*decides things for you\*.

;oP.
