442's power from the EDS?

If not, a step down transformer will =
do it=20
however. I think it cost me \$90
Australian or so for a 240->110 =
volt=20
unit which would be overkill for such
things.

I =
imagine you'd=20
pick one up for \$50.

If you have no luck at electronics stores, =
try a=20
travel agent, or the airport.
Be sure what you get is safe for =
computer=20
equipment however. Electric shavers
and the like aren't that fussy =
with=20
their power.

Cheers,
Kim.
