>With all due respect James, this is exactly what I'm talking about when I refer to Mac as hosing the end user. the triple screen display is \$4k and to add two more monitors (which you will have to pay for) to an existing setup is \$2k . That's pretty tall cotton amigo. Add that to a 4k Mac and you've broke the bank for a hardware configuration that will be obsolete in a year (or sooner if Apple needs a new cash infusion.)
