came down from Mass.to work with me on the last
piece. That should be done in a week or so, then I have to contact Sakis
about the mastering. I'm actually "finally" going to get this done! It
is embarrassing how long I take to do things some time!

Maybe next time we can make it.

good fuzz pedal for a long, long time and nothing did the job. Eventually
I found the Sybil from Retroman. Pretty boutique though not outlandishly priced,
about \$250 for what is in essence two pedals. It sounds flat out better than
anything else I've found. So I guess I'd say it's get your boutique thing
on only in those specific places where it's necessary.
