-----=_NextPart_000_0029_01C63D19.45777050--I suspect yes.

A not so great power supply shows its ugly head on some circumstances.
Maybe compressor is unbalanced while Paris is balanced on its inputs.
Hum nad noise is a vey strange thing.

Regarding my mic, thank you for the concern, yes it is ready.
It sounds great looks very nice.

I will soon will have a special website for it.

Regards,

Dimitrios

Honestly, next to the older Spock's Beard stuff, DT is one of my favorite prog bands. I wish I lived closer so I could go!

> Cool stuff Aaron! My day job is working in my families auto dealerships. We've been in the business for a little over forty years. My main beef with concept cars is that the factories go great expense to create them, but then end up manufacturing mostly ugly crap that has very little of the excitement the concept cars exude. It's been changing slowly over the last few years though and finally the "Big Three" are getting a clue. I hope is isn't too little, too late. I love the retro muscle car looks that have been coming out. The new Mustang is beautiful. The Dodge Charger is cool looking too.

Sure glad we aren't stuck with those lousy K-Cars like in the 80's (blecht!) these days. It's nice to hear that you are seeing even more changes for the better inside the industry.

>That's pretty much the deal, clash of the schedules. Everything is green light here though and I hope to show him some of the country along the way, so I don't mind so much the road trip. Heck of a birthday present for him... of course, when I was that age I moved to Nashville for a road trip, hahaha. I'm still hoping to see some Paris buds in OH if there are any that ring in by then and wanna have a meet 'n' greet.
