This means the EDS cards didn't take a hit. Whew . . .
Yes, it was definitely hardware. Chris Lang sent me his Mec
(thanks Chris) and I installed four modules and all is right
in Paris. Tomorrow another Mec shows from Jon Jiles and
I will install another 4 cards in that. I have three Mecs that are
on the bench right now and maybe two of those will be repaired
shortly with the new chips. Hopefully I'll be up to the 4 Mecs that I=20
wanted in the first place.

I may add a 442 (HA! feeling ambitious again) for the SPDI
