at first, may piece it out if there aren't any takers after a while.

I'm listing individual prices, which I think are fair-to-low, so you can see that the total price is quite good.

All black hardware, most cosmetically 9/10. Everything worked great when last used, but I don't have computers to test it any more, so it's SOLD AS IS, but I don't expect any problems.

3 - EDS computer interface cards $120 ea
3 - MEC module rack w Master module $120 ea
3 - Control 16 control surface x 3 $70 ea
3 - EDS ADI-01 ADAT i/o module $1

00 ea
1 - EDS A8iT-24 analog in module $75
1 - EDS A8oT-24 analog out module $75
3 - Interface 2 i/o box $30 ea
all my PARIS cables - can list if need be, but they were enough to hook everything up

I also have a license for the software that I don't need, but I'm not sure it's possible

e full bundle.

Total of those prices is $1,470, bundle deal $1175, ~20% savings.

PRICE DOES NOT INCLUDE SHIPPING, will quote when I know where it's going. Or better yet for us both, we can meet in the Boston area for pickup (at some public place, to protect us both).

PAYPAL ONLY, or cash in person. For PayPal, PLEASE ADD $16, that's us roughly splitting the PayPal fee.

Thanks for looking, spread the word if you know anyone else who might be interested.Hi Dave,

/>

I sent you a PM, but I got a blank "new message" window after sending it. Let me know if it didn't arrive.

All the best,

MikeOK folks, really would like for this stuff to find a new home, and I'm willing to bend over more than a little to make it happen.

The whole package can be yours for $925 + shipping, really quite a good deal I think.

Ping me.hi yanoska.
sorry to hear that life has some difficulties for you, such that you feel you have to sell off

work perfectly? and one of the controllers is absolutely brand new?
  where would you be shipping from? i'm in los altos, california (94040). could you give me a rough idea of what the shipping costs would be like? you could send to me by

ng costs for overnight, next day, 2 day delivery, and the like. i'll only need the items to be insured, and require a signature for delivery. and I think i'd probably prefer FedEx over ups. would all of that be OK with you?
i'll very much be looking forward to hearing back from you.
most sincerely yours,
harry e.Items moved to ebay.

Best regards, Mike.

Hi, there is some Parisgear left, that i like to sell.

Shippingcoast for cards :
7€ Worldwide.

br />

Shippimgcoast for Mec and CS16
36€

Feel free to contact me !

1x MEC
1x Blue 8TRS 24 Bit A/D (installed in MEC)
1x Interface 2
2x EDS-1000
1x C16

All original owner except possibly one of the EDS cards - I don't remember .

The EDS cards are still sitting in the G4 that hasn't been fired up in about 10 years, but everything worked fine last time I used it. All in very good to excellent condition. I'd rather sell it as a package.

How does $450 +shipping sound?I'm looking for one (or two) EDS cards, preferably in Europe (no customs hassle) but outside of the EU would be OK too; beggars can't be choosy.

Please contact me if you have any for sale.

If I manage to get sorted, I'll update

et in touch!

Regards, Nic.How about 2 esd 1000 cards, 2 mecs, 2 Adat cards.
That would leave a smaller complete system for sale.
Kurt About the mecs, I only need the main interface cards, I have the chassis. I combine 2 mecs into one for saving space.. That would save shipping them big

not the mecs. Does that mean you're actually interested only in 2 esd 1000 cards and 2 Adat cards?

And apol
