>speaking of airbrushing the toilet seat.....what is it with women. i lift
the seat and get a perfect shot but women seem to have this spray nozzel
that works from underneath spraying the underside of the seat and making
a real mess. Apparently it's not controllable either.

oh, and i wash dishes, mow the lawn, put up my laundry and make pizza.

king =
position.

All I get is this error and can't boot up Paris.

Last working configuration:

Submix A MEC

Submix B 442

Submix C MEC (no working audio)

Submix E MEC

I tried swapping hardware between Submix B and C and that's when =
the trouble began.

I also reseated the eds cards and their cables.

Is it possible it's an effect? I have added nothing new in months =
and it was very stable.

Maybe a defective default project?

I'll try another one to boot from that happens to be at 48k.

Tips graciously accepted,
Tom

I choose Polesoft Lockspam to fight spam, and you?
