chrisl@adkproaudio.com I have a client who wants to know if I can burn a CD that will
automatically
loop to the beginning when it reaches the end. I'm a Mac guy so I use Roxio
Jam to burn CDs. Will Jam do this? Will anything do this?

Thanks!

ganttMy son Jake, who is 11, has fallen in love with HOT 99.5 FM, which plays the
current Top 40 R&B and pop and rock tunes. There seems to be this epidemic
of robotic voices going on. It sounds like Autotune

How about "Stronger" by Kanye West? That can't be Autotune!
