Neil, Edna, couldn't the rectifier just have gone Kablooey? As you say =  
it could be symptomatic of another problem but if you read my last post, =  
I may have been overloading the thing. Looking at the circuit board =  
carefully, I see no other browned or burned resistors, etc. Maybe I'll =  
send it in, but I might try to fix it myself as it will be only a couple =  
of bucks if it doesn't work. The unit was bought used from another owner =  
a few years ago, on ebay, and I'm not sure if it is still under =  
warrantee. I'll have to look into this. I probably know just enough to =  
get this wrong, but wish me luck. I know..... I'll soon be hearing, =  
"I told you so"! :-)

Thanks,  
Rich
