Well that would be most kind of you. :o)

Indeed that's a very hard offer to pass up. ;o) I might just put a beer button  
up there. I mean if people want to buy their friendly newsgroup host the  
odd pint who am I to stop them? ;o)

Cheers,  
Kim.This is a multi-part message in MIME format.

Some very inventive work here. Instrumentation choices  
are unique (even bari sax and bass clar.) and the songs are all catchy. =

Impressive in every respect from mixes to song writing. Reminiscent=20  
of some 20s - 30s style too. It's not just the picture. Great =  
performances.

Super work Sarah! You are a creative force to be reckoned with. =20  
I'll be buying it.

ig is going very well. It took me and the pro tools rep less  
than 48 hours to completely swap over systems. That includes the new console  
and surrounding furniture.

The main difference to me with the mix bus in PT's, as opposed to Paris,  
is how much larger it is. Its easier to get cloudy in Paris. Im still running  
at 48KHz on PT's. Paris certainly was a great way to spend 6 years, but things  
really have progressed in the Digidesign world.

Just a few thoughts.....

The 1212(M).The(M daughter card)AD/DA's are the difference. The 0404 has  
the standard DA(s)

I have both cards and the 0404 sonds georgous!, but when i got the 1212M,  
man!! another level. Really. Another level..
