> >  
> I have done comparisons between my apogee da-16X connected directly to  
monitors, and going through the mackie. The mackie adds a bit of low level  
noise, and smears the low end compared to the direct signal. It definitely  
does not give you exactly what you put into it. It may not make a difference  
with low end converters, but you can hear it with the apogeos plain as day.  
I plan to upgrade, most likely to the Colman, when funds allow.
