I am interested in your Magma. I am in the U.S.A. Can you explain the  
condition of your Magma. Would i need to get an USA power supply?

I don't have anything to trade. I would like to buy only the Magma.

and you still do not have them my guess is you did not install paris to the  
stock folder/directory. Uninstall it, then reinstall watching CAREFULLY that  
the right folder that the paris.exe is in is where the patch installs to.
