one using Windows 2000 successfully? If so, did you install the xp drivers?

>Thanks!

Anyone?I've heard of 2 ppl that tried, one with some successes but it's been a while (over 2 or 3 years ago) and I don't recall who. I guess the worst you can do it try, but I sure like XP a lot better (over 2k in general) if you have the option, and you'll be in better company if things don't go well at some point and you need help.
