I honestly don't know. It was more likely the owner who engenerated it though. Dean had a basic knowledge of electronics, but he was not a full fledged engeneer. He used to have stuff fixed for me once in awhile and he would say he would take it to one of the guys in the factory that knew what they were doing. But he probably had some input on it though.

Years ago, he gave me an Aragorn power amp, which I still use with my Thiel CS-2 speakers
