(nice work ;)This has happend randomly for as long as I've used Paris, and I'm using WinME (since about 2000).

I do find that being very deliberate about record and then play (leaving at leas

orado Springs in late April after we both get past some deadlines. I wonder if El Miguel would be up for a short road trip, too (got your ears on Miguel?). It's time to check out Dedrick's studio

and hear more of his amazing music.

Of course spontaneous gatherings are likely to happen whenever DeeJ is in town.

Cheers,
-Jamie

Thanks Mike,

How do I check the swapfile size?

Tom

"Mike Audet" <mike@..> wrote in message news:47f75440\$1@linux...

Hi Tom,

My understanding is that that this switch can cause trouble with some =
drivers
and requires that the program be aware of the switch. I'm not sure =
if
there is any way to test whether a program is using the extra GB, =
apart from
loading more than 2GB of stuff and seeing if the swapfile increases.

Hope this helps!

Mike =20
