I guess it is not hard to be done by someone somehow qualified to mess up
with stock ini file...
We have mono reverb and mono delay tap on inserts mods would be great to
have a chorus on insert ...
regards,
DimitriosHi Dedric! Thank you for responding, and yes, I'd feel safe w.
Emu on the 1820. Still keep my eye out sometimes for a used Emu Planet Earth,
and kept my old Proteus for several of its sounds.
(Besides, I only paid $75 for it!)

Currently, I'm attempting to work w. Paris, but am years behind
this Newsgroup in basic areas, and do feel that all the benefits
of a newer and much more integrated system will likely become
necessary...

Your points about Emu/Creative make sense to me, and, well, no
surprise that some of Paris' brilliance should show up in
SoundBlaster!

Cheers,
Kim
