In fact, this has worked out well with many people here and I've had no problem. The fact that I agreed on a price after someone made me an offer has no bearing on whether or not this is a smart way to do a transaction.

He could have very well agreed to my list prices and then flaked. I don't really see your point.

Anyway, I assume that you and I will not be doing business, which is fine.

I guess I just wonder why you would even bother to comment, or to take issue

with my post? Just ignore it, if you don't want to make an offer! I don't want to have an issue with you or with anyone.

Best of luck,

Shawn

Perhaps you could re-think the whole thing out.. or continue to write like a jerk... your choice... and I never said there were rules on this board about bidding... You don't know me and I don't really care to know you... but it might be wise for both of us to end this now. Good luck with your bids. lets end this.. or continue to show what a seller you are.... out.
