>Man that cracked me up. I can relate, my inner child was once killed by Wi98 and Adobe Premiere during a deadline project that I eventually had to entirely redo on another system, finishing just hours before the plane took off. Wasted an entire week and lost a lot of sleep.

For the Mac, OS7-OS9 sucked harder and harder as they struggled to keep

the legacy going, frantically working around decisions from the early

80s. OSX is significantly better. Not perfect, but a whole different league.
