is green and a thousand other colors.

>Lots of birds, deer, badgers, prarie dogs flying and scurrying around

>getting ready for winter. I was sorta walking along looking at the mountains
 >around me and I noticed that the normal bird sound had stopped and so I
 >started scanning the area around me. this can be a sign of bears or cougars
 >and I wasn't packin'. About 100' to my left was a fenced area overgrown
 with
 >vegetation and I walked over to it. It was the family cemetery. It was about
 >100' x 100' and there were about 20 old grave plots in there. I started
 >checking the names and dates because I am going to need to prepare an
 >affidavit of heirship of this family in order to determine who will sign
 the
 >paperwork for this roadway and who will get paid. The owner already told
 me
 >that the land has been in the family since the early 1900's and was patented
 >to his great grandfather. None of his relatives ever left wills so I'm gonna
 >have to unravel this family tree. As I started noting the names and dates
 of
 >birth/death I was walking along a row of graves and there were three graves
 >of brothers (I think) that had birth dates in the 1880's and they each died
 >between 1945 and 1947. I noted their names and moved on down the line and
 >all of a sudden I got an absolutely wierd feeling and the hair on the back
 >of my neck started to tingle. I turned around and it looked at these graves
 >again. I could figure out what it was about them that was different. Then
 it
 >struck me. all of the other graves in this cemetery were overgrown. The
 dirt
 >on top of these three graves was relatively fresh and it was obvious where
 >the rain the night before had turned some of the dirt ot mud which had sorta
 >molded to the contour of the crown of the grave but none of theese three
 >graves had anything at all growing on the graves. How does that happen when
 >theses guys have been dead since the 1940's and every other grave out there
 >is overgrown?
