vtmp-2b then into a reissue 1176 then into a ua2192
converter then straight into paris.I then add a uad
compressor plug if it enhances the track.I found
the dbx160x was a little too bright on vocals.
My 2 cents.

the nero

software supplied with the new DVD burner, and a second to clean off roxio software. He said the regular add remove process would not cut it.

Anyway, in a few minutes my computer has returned to normal without any major deal.

I'm not watching a dvd yet but I hope to get into what this thing does right away.

Just wanted to get you guys off the trouble shooting mode ASAP!

Although I had to work with 3 people at memorex to get this together, they all bent over backward to help me.

Thanks again and have a great weekend.

Lance
