iosMike,
Thank you for your proposal.
For now I just can use Mec EDS card and ADAT card.
I have no need for 442, C16.
Thank you

Jeremy,
\the cost for sending the chassis to US is high.
This is the PCI-7-RX Magma consisting P7B backplane, PCI EXP 2.1 and PCI
Host 2.1 plus the cable.
How much would you pay for these excluding the chassis ?
Regards,
Dimitrios

This is my Magma PCI-7_RX chassis with pci card host card and cable.

I would trade for a Mec with ADAT card.

Europe is preferred due to lower shipping costs and taxes.

How much do you want for a trade in of two "non-working" EDS cards for a new

I can pay either via Paypal or credit card.

Replace diespam with jaybeltonHi,

Interested in a working EDS card. I'm in London, UK, so Europe preferred but by no means essential. Happy to pay international shipping (e.g. from US). Drop me a line at daniel_burne@yahoo.com

Many thanks

Dan I need an EDS 1000 card Hey,

I have these things left over from my PARIS rig to sell:

- (3) 8iT-24 Input cards. \$325 each plus shipping.
 Original boxes
- (2) Black Face MECs w/cables. \$250 each plus shipping.
 Original boxes, one unit missing two face plates.

(1) Control 16 \$150 plus shipping.
 Original box.

All pieces are in excellent and working condition.

Payment with PayPal preferred.

Please help out and pick any of these things up if you need them. My spouse made the car very sick by blowing out a cylinder. Now it's gonna cost 1700 to fix!

:(

thanksHi, guys. It's been awhile, huh? I don't lurk here anymore, but I would like to give away some EDS1000 connector cables, some long for you guys with expansion chassis setups, as well as a few printed PARIS manuals. These are both originals and printouts. I do have the chapters organized in a nice accordion folder.

If no one is interested I will toss the whole bunch by the end of the week. I would only ask for \$10 to cover the shipping.

E-mail me at bachandroll@yahoo.com if you're interested. Thanks!

Cory BonnettFS: rollaround rack for up to 3 C16 units. This is a custom top sitting on a BRC stand. It holds them in a very stable manner. The cables stay out of the way as well.

I would only ask for \$50 plus \$18 to cover the shipping. I would also be interested in trades for Behringer DIs, Floyd Rose vibratos, Tony Robbins items, Jaguar memorabilia, firewire cases, or whatever else might strike my fancy.

E-mail me at bachandroll@yahoo.com if you're interested. Thanks!

I have a couple. Only catch is, I'm in London. What's the going rate these days? Let me know and we can work something out. (see my other FS post)

Myles

This has got to go! I'm moving and can't afford to keep the extra gear.

I've already got two other Paris systems as my main rig and have these as

spares.

Would rather sell as bundles but will part out if need be.

Make me some reasonable offers.

reach me @ paul_o_connor@hotmail.com or post here on the group.

Thank You!Hi,
400 \$ for two EDS cards plus shipping to Greece (around 40\$) ?

DamirI can go up to 280\$ for that two items.....let me know

DamirHi all, I have an adat card for sale.

Blackface, \$320.00 USD + shipping from Vancouver.

tc at soundloop dot comHey still trying to move these. I've sold most of my old rig so far. Just have these left:

(2) 24 bit Input cards	\$325 each (OBRO)
(2) Black Face MECs	\$250 each (OBRO)
(1) Control 16	\$125 (OBRO)

Shipping to be paid by the new owner. Smoke free studio. Working condition. Original boxes/manuals/connection cables, etc. I am the second owner of one the MECs. This one in particular is missing two face plates and came in a "funky" original box.

Paypal is preferred for a quick and safe transaction.

Take diespam out from my email address and replace that bit with jaybelton

Thanks all!
