>Bill,

I like your positive attitude. Fun is good. But in the meantime, can you get your e-meter out and audit the evil intentions out of the oil company executives? Hey, clearing the planet could take on a whole new more literal meaning. :)

Sarah

>Don't know and don't care. I build my own computers that do the things that I want them to do. They're cheap, the parts can be replaced or interchanged and since they've basically got my name on them rather than someone else's, it's my own fault if they crap out 99.9999% of the time.
The genius bar around here is a banquet table covered with gadgets, a SenFu test bench with a PSU sitting on it, a monitor, keyboard, mouse and some other crap with a power strip velcroed to one end of it.

If I get hosed, it's usually self induced.

;o)
