Mmm, yes that's true. I guess I'm basing this idea on an AKG that a singer from a previous band had. They sell here for around \$350 (probably \$200-250 in the states) and he didn't have any trouble with it interference wise.

He did upgrade in the end to a Shure, but he said that was only for the tonal improvement, not because of an actual functional issue... of course feedback was kinda the FOH guy's problem, so it's possible that unit may have been a little more difficult to manage feedback wise but he may not have known.

I beleive AKG

do make a headset version too.

The other thing related to your comments (esp feedback) which I suspect you were alluding to also is the general rejection of unwanted signals for vocoder work. The vocoder isn't going to be as effective if it's picking up a whole bunch of signals from keys etc coming through foldback. Obviously quality is an issue to a certain degree.

I had already, at least, counted out the units that sell for \$15 on ebay...
;o)

I probably do need to go and test some and see what I think. Perhaps it will have to wait until I can afford one which is worthwhile.

Cheers,
Kim.Hi Kim,

Don't know of a cheap one, but one thing I want to point out is that some of them are way above average.

This one:

8,8 thing in
the past if you had ny eds cards burnt out.
I have two big fans blowing over the eds cards anyway.
I am also considering just to be on the safe side to add these copper little
addons that can be put right over the chips so whenever air is blowing on
them they got somehow cooler.

Anyone ever tried this or other things ?

Regards,

DimitriosThank you, Martin. After a fun session tonight, getting a little
deeper into Paris, It may be too late for me! I'm gettin'hooked
right by the ears. And the C16 is such a cool, sturdy piece.

I think it likely that the EQ in the 1820M is probably, as w.effects, much like Paris. I really appreciated the Paris EQ on a vocal track earlier tonight. If/when I sell Paris, it should fall to some total Parisian who needs spares! Maybe for now I'll just hang onto a

system that's got soul to it!

Mr. Tankersley, Aaron A., DeeJ, so many other core Parisites, thanks for your wisdoms and contributions.

I can see adding new sytems, but keeping Paris at core.

If you can, gas up B4 Rita. Another \$\$ spikes's on the way. Gassed up here in Edmonton, Alberta, today for \$.984 Cdn./liter.

It hit over \$1.40/L. here right after Katrina.

Kim

Martin...

Do the EFX sound good? Is part of the benefit you find that it reduces CPU load as opposed to using Native plugin's in Nuendo? Also, what about the summing... are you bringing stuff out of Nuendo to sum in the 1820 (and if so, does it act/sound like

Paris in that regard)? And finally, are you using it on the same computer as Nuendo?

NeilD, what's the default transfer...if you don't type anything?

Rod
