In pharmacology, all drugs have two names, a trade name and generic name. For example, the trade name of Tylenol also has a generic name of Acetaminophen. Aleve is also called Naproxen. Amoxil is also called Amoxicillin and Advil is also called Ibuprofen.

The FDA has been looking for a generic name for Viagra. After careful

consideration by a team of government experts, it recently announced that it has settled on the generic name of Mycoxafloppin. Also considered were Mycoxafailin, Mydixadrupin, Mydixarizin, Dixafix, and of course, Ibepokin.

Pfizer Corp. announced today that Viagra will soon be available in liquid form, and will be marketed by Pepsi Cola as a power beverage suitable for use as a mixer. It will now be possible for a man to literally pour himself a stiff one. Obviously we can no longer call this a soft drink, and it gives new meaning to the names of "cocktails", "highballs" and just a good old-fashioned "stiff drink". Pepsi will market the new concoction by the name of: MOUNT & DO.

Thought for the day: There is more money being spent on breast implants and Viagra today than on Alzheimer's research. This means that by 2040, there should be a large elderly population with perky boobs and huge erections and absolutely no recollection of what to do with them.

>Hi to all.
You may not know that except for a crazy tweaker I am a songwriter producer
musician with some international awards for my songs.
I have a project with a female English artist called Laura that is now in
a process of remixing under Paris.
I have remixed the basic strong track and I would like if some of you could
point to the right people in business (Brian-T ??)that may license ,distribute,
maybe co-produce if there is a strong producer and it will be essential,
for this project.
I believe that is very very strong stuff with commercial potential.

Just needs the right connections.

I am willing to give percentage of any potential income to anyone who will help me in this pursue with this project.

Other project with male band artist is following (this is also a fantastic project).

Sorry for me being so positive with my stuff but I really believe in what I do !

Thank you in advance and please let me know if someone wants to hear to this track so I can email an mp3.

Regards,

DimitriosJoe,

Make sure you dont have the 'pc freebies' FX installed.

It's buggy and causes problems like you're having.

I believe we have enough information to do it. Having the TIME to do finish it up is quite the other thing...

Doug (I can't even keep my web sites updated...)
