hey made them? I didn't until I went to the local guitar shop to check out cheap Fender bass amps) -- I have a bass amp and the other guy has a guitar amp (with an xlr in) which he sings and plays through. I have a tiny mixer which I use to put my vocals as well as bass through mine. Everyone in a small cafe we play in says it sounds great. No monitors needed - we just set up with the amps somewhat behind us. On the lastest of these gigs I used my new monitor instead of the mixer, and it sounded even better.

Both these Ibanez amps were under \$200. Astounding.
