this point you will not find PARIS hardware in more excellent condition, like-new condition, as little used, as clean, with fewer hours on it than what I have to offer. Items have been boxed, on a shelf in my home, for most of their life. Again, unfortunately, only 7 projects were ever completed on this bundle. After many years of health issues, job loss, and financial troubles, among other life adventures, it never really got used. I even had 2 houses built over the years with physical modifications to the basement to facilitate a studio which was never built. I'm now downsizing and need to sell.

I have priced items by averaging 5 listings found here for each item except the Control 16's; little use, little more \$, but I think reasonable. There is a picture above of the lot, however, you can follow this link to see many pictures of the individual components and read my story. <https://www.dropbox.com/sh/w2s3o1lqq9jh4u2/AACPbkPicgRuoz6m9GVXuH0Fa?dl=0>
(Note: after reviewing the pictures I did notice the foam I used to display items evidently shed some dust and lint on the black items...not scratches!)
