Bummer Tom, wishing you a speedy recovery. Music for the soul and spirit =
as much as you can manage in the mean time. Also a good opportunity for =
a new perspective.

Guidance,
Rich

news:479b7a9b@linux...

He guys,
It's been a month since my last post. Reason being
I broke my tibia fibula just above my ankle clean through
on 12/30. =20

Got some titanium inserted inside where the marrow was
and screwed in in three places. I spent five days in the hospital
due to a fever I was running. The pain was incredible for
the first three weeks. Now I'm barely taking the pain meds.
They helped alot though. Toes are moving and feeling. They
tell me that's good. Ankle feels swollen and tender and is tough
to move.

Physical therapy is in house which is great although
very difficult. I am giving it all I've got to get back on my=20
feet asap. So far keeping the foot above my heart all
the time is the best way to keep the swelling down along with
ice after exercise.

I want you all to know that I've been looking in here over the
last few weeks and it's great to feel some what normal again.
I can't spend more than 30 minutes at a desk. The studio
has been out of the question although I'm looking for a way to=20
rest my foot on the console without falling out of my chair.
I am giggling once or twice/week which is way bad for me. =20
Gotta make a living. =20

My stereo amp is in the shop where I am sleeping and exercising.

When it comes back I'll be doing some big time listening.

Any tips from friends here would be great regarding healing and/or music productivity while healing would be great.

I'm down but not out,
Tom
