i hate this card.

jLHi Jeremy,

Many have said Matrox is evil. I've had and used a G400 and a G550 PCI.

Drivers seem lame. Card is slow by today's standard. It surprises me that it was worthy of a PCIe interface. I'd say lose the card.

>Yeah, have to agree about Matrox.

If you want to run 3 or 4 monitors, I came across a 1x PCI-E

card which would complement a 16x card, if you only have one 16X slot.

I bought one and it's very good.
