with the mullahs and dump Israel, they will leave us alone.

Being that they kill other muslims simply for believing a slightly different strain of islam, this is a risky proposition, but there are millions who believe it.

rph into uber-hawks? Will they give away Israel?

DCGreat! Would love to see your studio if time permits. Send me your contact info and let's hook up.

TyroneSimple. Yeah...

It would be great to get beyond black and white thinking. Beyond characterizations that rely on false dichotomies. No amount of straw men will protect us.

Sure, such simplisctity fits in with the views of those itching to revisit the crusades. But does that seem like a really, really smart strategy in 2006? The crusades created piles of dead bodies and we have such better weapons now. Can't we be just a little bit smarter almost a thousand years later?

Using the Hitler appeasement argument is like fitting Cinderella's sister's bloated foot into Cinderella's petite shoes. The shoe doesn't really fit. There are some similarities between these situations, but many differences. It would be limiting to cling to that one point of view, pretending that some straw man is the only other point of view,
