-----=_NextPart_000_01D5_01C70F6B.3614F950--Tom,

Looks like the specs o the triple head don't allow more than 1280X1024
on each monitor, so you would be "stuck"

You're looking for a matte or antiglare finish. The reflective finish
has become more popular (especially in laptops), because it comes off as
brighter (especially in power save mode).
