chrisl@adkproaudio.comI've heard that people are not that impressed for the price. Talk is cheap, in other words, use your own ears. Hopefully somebody will be able to really chime in here.

Another option is the Black Lion mods.

And the rappers can curse, so I get to hear more of the song. I'm especially
impressed with the reggae channel, which really mixes well know stuff (Wailers,
Tosh, Jacob Miller) with a _generous_ dollop of much more obscure titles.

I get it with my satellite TV and have a little list of the channels so I
can change the channel without turning on my projector. Very cool.
