I am using "oceans" of Behringer products here and have used them for years without any problems at all, so the myth about how bad Behringer products are is just a myth for me, but not for DeeJ;-) I see the shops are selling it official in Cobenhagen.

But that's the next test Neil. Track the whole project all over again at  
44.1 \*exactly\* as was previously done at 88.2. ;o)
