Chris can correct me on this, but I believe that Reaper has some sort of "on-board" smpte generator reader. If I'm right here, you could send a smpte signal from the Reason Machine and route it to the reader track in Reaper. (Of course, you'd have to use up an IN and OUT, which might not be doable with your buddy's set up.) I've been using smpte to lock machines together since I started using Paris
