d about a bundle of cards, had that transaction went well I had planned to grab the remainder of your items. If you read my other posts on this forum you would know I've been searching for PARIS parts for a while and I'm wanting to build a 4 card system with all the I/O for the system.

Second, you then would only sell me select cards per EDS card. So while you list items for sale, you have stipulations for what items you will sell together. I had no terms outside of asking you about secure payment forms. You said bank transfer only. I accepted that and moved on. I had hoped you might change your mind as I still

t this point you will not find PARIS hardware in more excellent condition, like-new condition, as little used, as clean, with fewer hours on it than what I have to offer. Items have been boxed, on a shelf in my home, for most of their life. Only 7 projects were ever completed on this bundle. After many years of health issues, job loss, and financial troubles, among other life adventures, it never really got used. I even had 2 houses built over the years with physical modifications to the basement to facilitate a studio which was never built. I simply need to sell what remains.
