good, and it's unbalanced), my main Audio card.  
I've actually got to return the Delta card because one of the output  
channels is history, (no tops at all...like a sub), and also clocking noise  
when the mouse is used and just general noise.  
Doesn't seem to be recorded though, a bonus I guess.  
I sold my Paris about a Month ago so these cards are all I have now.
