honest, I have no idea
how this occurred. However, the error message was clear, you must ERASE your
hard drive and partition it using the GUID partition scheme if you want to
install Leopard.

Erase my hard drive?

09:45am -- The First Customer Service Call -- To be fair, this was the first
day of the software release, so one could reasonably assume that the wait
time for tech support would be long. After being on hold for 48 minutes,
I spoke to a lovely woman with a very thick foreign accent. I asked her if
the error message was correct or if there was any other way to install Leopard.
"No," she said. "You will have to erase and partition your drive using disk
utility. But here's the good news ... just copy your disk image onto the
newly partitioned drive, shift-double-click the mounted image and next time
you reboot your computer it will wake up exactly like your pre-Leopard build."

Wow, that's going to be easy. I have the disk image, I have a back up incase
it fails, I have
