mance by doing the following:

- 1.) First create a text file with the extension .reg
- 2.) Paste the following into the file:

```
REGEDIT4
[HKEY_LOCAL_MACHINE\System\CurrentControlSet\Control\PriorityControl]
"IRQ8Priority"=dword:00000001
```

- 3.) Double-click on the file to enter the tweak into yo

ur registry.

This can be un-installed should you need to by repeating the three steps above with a new file, except this time use the following in your .reg file:

```
[HKEY_LOCAL_MACHINE\System\CurrentControlSet\Control\PriorityControl]
"IRQ8Priority"=dword:00000000
```

-----  
Disable Power Management - Power management can be disabled by going to "Always On" and set "Sy

>I'm pretty sure you can store your own tunings with the PC software program for the Variax. The editing software also lets you do all sorts of weird stuff, like put four single coil pickups on an ES-335 and rotate two of them and put one on the fretboard, etc. Basically you can build Frankenguitars with weird combos and placement of parts. The keyboard/rhythm guitar player in my band just bought one, and I have to say it's much cooler than I thought it'd be.
