Well it seems more people are interested in parts as opposed to a complete system. The only thing I worry about is ending up with a C-16 or MEC all by itself. Is there any interest in either of those or are people mainly wanting the I/O modules and PCI card?

Thanks

-eAll,

I currently own a PARIS 3 system:

- One MEC chassis wi

th and additional 8 I/O card

- One C16 control surface

- One EDS1000 card

- Two cables (from EDS to MEC and from C16 to EDS)

- Original shipping boxes

All are in excellent condition. C16 is like new as is MEC chassis. I bought this bundle off ebay last year installed it and used it a few times. Asking

\$500 for the whole bundle.by "with and additional 8 I/O card" do you mean an 8 in card and an 8 out card? or do you mean the adat card?

I've heard from a couple of people interested in the 3.0 software license. Does anyone know what is involved in transferring it?

Thanks

-eHi to All !

that's it, want to buy Paris 3 system,

I am located in Athens, Greece, have great feedback at ebay,
contact directly,
