I have TextEdit set to "plain text." I save with ".html" as the extension. Make sure you are showing extensions in the file requester so you don't end up with something like ".html.txt" - which would confuse any browser.

Speaking of editing the site, gotta go change a gig date...

On my primary controller I have a harddisk capable of udma5 and a dvd recorder asus new one latest technolgy that supports double layer and records up to x16.

XP sees though the dvd recorder only in pio mode !

while the harddisk is seen as uldma 5.

So now the harddisk which has the xp installation runs also at pio mode !!

Any cure ?

When I tried to uninstall /install the master controller drivers it was a no no go procedure, always an error when trying to load drivers.

So I had to recover from Ghost image.

DVD recorder has the latest bios installed.

I am stuck...

Thanks

ps: My email address is : musurgio@otenet.gr I didn't ask why they were foiled, silly. You said, "we need to know

exactly how these plots were foiled," so I was just repeating that and

offering up an answer that I, of course, do not believe at all. I was

merely making fun of those people who apparently do believe these things,

and attempting to satirically point out the particular absurdity of the "fighting them there so we don't have to fight them here," justification for Iraq. I don't actually have "my own personal Jesus," but somehow I just don't think he would approve of all the "collateral damage."

Perhaps you knew I was being "tongue in cheek," and you were too and I just missed the subtlety. :)

I'm not so sure it was Jesus personally, but I guess, if you say so.

I had this problem once and I think it was solved by making the DVD drive the master IDE device on the IDE2 controller on the mobo. Some optical drives don't like being the slave device, even though the option is available.

Thanks Dave,

I will give this a try.

geneJust purchased two 10ft HD50 M/M cables off of ebay for \$47.

That is 50% savings from the cheapest websites I found.

Thanks all,

Thanks everyone.

GeneHi Sarah,

Well, I suspect there are all sorts of things in our world that Jesus disapproves of, including slavery, female circumciscion, sharia, burqa's, the deliberate targeting of civilians, and Islamofascism in general. (Oh, and not to mention those who don't believe in him, attributing positions to him to make political points)

But there is certainly lots of guilt to go around isn't there?

That's why Christians believe these to be the last days of earth's history. There are no easy answers. Maybe no answers at all, except to hold fast and warn everyone of what is coming.

Please notice though, that we are not "fighting them here", we are, quite successfully *catching* them here, before any fighting is needed. Weakening the ghouls and head choppers makes us safer, it is clear. Give them ground, and they use the ground for more attacks. Appease them and you get more of the same. This is not disputable. Just take them at their own words. They clearly see your version of "peace" as weakness and an opportunity to kill more of us.

Yet, it is really hard to take a purely right wing position, I know. I DO NOT trust our gummint one little bit. Too many soldiers died in Vietnam for no reason to do that. Venal, cowardly, and amoral leaders are responsible for the deaths of too many great young men and women to trust them. (Bill Clinton was no better than Nixon and Johnson BTW, just read "Blackhawk Down") At least W is committed to victory.

The only thing even worse than blind patriotism is the insanity being peddled by the left.

And as a Christian I admit to the strong possibility of a time in the near future, when there is no difference, morally, between the right and left whatsoever.

And then shall the end come.

DCAs a believeing Christian,
why should we do "Anything at to save oursleves form the inevitable"??
If Jesus is soon to return, then why are so worried about the end times??

We are to pray and help those who are not saved, to get saved..
Jesus goes on record to say that " No one but the Father(God) knows the end
of time(earth), to be ready (Spiritualy) when he (Jesus) comes..
He aslo states, "There will be wars AND Rumors of wars, daughters against
mothers, sons against fathers, nations against nations..But "FEAR Not"..

It seems that we (Christians) are fearing for the Jesus return instead of

Celebrating his coming..
We(Christians) need to read the test again..

Oh yeah, Jesus also goes on record to say "Love they Enemies"..I know, what a hard thing to do, but we took an "Oath of Faith " to follow his (Jesus) teachings. So, we are not to only pick out his commandments that suits or fit us depending on the situation. LAD

Take them at their words. Believe them.

BTW, Ghandi's method has limits and in his own case became nothing but self righteousness to the point he ended up killing his wife because he would not allow an injection of antibiotics.

He called the injection "violence" and would not permit it, so she died of an easily-treatable infection.

Think Jesus approved?

Wouldn't have happened. The Nation of Islam would have been annihilated and many innocents would have suffered, most of them

black. The remaining black americans (the vast majority) would have been operating some of the weapons cutting down the Nation of Islam. We would have gone on as a country, just like we did after the SLA. Sorry, but that's reality.

There is no equivallence between national defense, carried out to the best of our ability, and the potential actions of the Nation of Islam.

>All in all, God ways are the best way and not Man's way.

You are right, and what scares the crap out of me is the idea of being led into war by a corrupt leader and having those deaths on my head. I hope I can see the point at which we can no longer support the govt. but I do not think we have reached it yet.

Hey, BTW. I am African as well. Got my results from the National Geographic Genographic test.

<https://www3.nationalgeographic.com/genographic/>

I thought we were Italian on my Dad's side, but it turns out that Dad's family started in Somalia and Ethiopia. We are most highly reresented in the current population of North Africans and there are Jews, Greeks, Italians, and Spaniards in their too, but it is an African family line.

Do the test if you can, but prepared to be surprised.

Forgiving them (terrorists) I believe is God's function. Our job is to
simply arrange the meeting!
