badly want us to succeed in Iraq because they consider it to be an
incredibly novel and revolutionary concept to attempt to establish a
democracy in the Middle East. The deep upwelling of resentment in the
Islamic world isn't reported by the press because the press itself is a big
part of the problem. They sell advertizing and have no sense of propriety
and respect for those who advocate traditional Islamic culture. It's pretty
easy for Mullas to whip up a storm of resentment when the media is barraging
the airwaves with images that are an athema to the mores that they try to
instill in their children.check this out.....

>Hey there,

Does anyone have a list of the round trip times for various permutations of
A/D on Paris?

ie, RTT for EDS External Insert via:

- MEC Master Out / In
- MEC Module A8ot / A8it
- MEC Master dL / dR

I remember there once was a list of some of the possibilities.

Thanks,

SandyBrian T measured 1.5 mSec from 8 in to 8 out. I seriously doubt there is any difference unless you utilize an adat port then you've thrown external convertors into the equation and will need to measure/document for whatever that piece of kit is.

>>>>

>>>> NeilThad, I couldn't agree more with your points, but in the real world I

just don't want to bring 2 guitars AND i want to comp with a lighter

sound, and then have my big fat neck position tone for soloing. Plus the

335 plays so nice and comfortably nothing else compares. I'm looking for

some kind of compromise.

I was looking at some EMGs that "are both single coil and dual coil pickups".

<http://www.emginc.com/displayproducts.asp?section=Guitar&categoryid=6&catalogid=6>

I wonder how they work? I would think active electronics would be a good

way to accomplish a dual sound, if there is a way at all. I use EMGs on

my strat and I'm satisfied with them.

1. Do you have the 5 position rotary switch on your PRS, or are you using a 3 position toggle?
2. Can you describe the sounds you get with this rig, and what the advantages are over the regular PRS 5 position switching?

This looks like a pretty cool option, and I could do it without any drilling or routing, just using the bridge pickup tone control hole

Validity is based on the scientific method and empirical data, not junk science. The jury is not out, Al Gore is far from being a scientist. There are over 400 real scientists who's studies dispute anthropogenic global warming and CO2 as the cause. I don't know about you but my car and boat use petrol and if the shmucks at the UN are pushing a certain view, with a political agenda, which affects the world economy and especially the US, and what I pay for gas, then my liberties are compromised. That's why I want the

truth and so should you. I don't have a problem with new technologies that are environmentally friendly, if they work and if they are cheap and won't propagate the economic meltdown we're experiencing. One of the biggest farces out there is Bio Fuels. It takes about 4 times as much energy to produce ethanol than is liberated from its burning. And it's causing increases in the cost of corn which in turn has caused increases in everything that eats corn, i.e.. cows and omnivores. The government subsidizes its production which increases taxes on you and I. I'm tired of the bull, how about you?

>Yes, you're right. I did hear about this. I think it's possible that ice on one side of the earth can be increasing while the other decreases. I suppose this has happened before in the many millennium's of the earth's climate history. The general group is just..... general. Right, we're gonna get busted and banned if this gets out of hand :-) Me a Paris terrorist?

e I =
get into Totalmix, the more sense it makes. It's also much easier to =
deal with when you're only using one audio interface for all your =
tracking/playback. I'll have that situation sussed in about a week.

I was looking at the ADK website while ago and for a little over =
\$1500.00 I could get a quad core screamer with the OS already installed =
and tweaked. All I'd need to do would be to add a couple of the 500G =
SATA drives I've got here as backups and I'd be set.

Yeah, I could build it cheaper, but not much and when I figure in all =
the time it takes to build it, load the OS, mobo drivers, optimize it =
and burn it in, paying them the extra \$\$ for their time and expertise =
makes sense in my situation.

chrisl@adkproaudio.com <mailto:chrisl@adkproaudio.com>
www.adkproaudio.com <http://www.adkproaudio.com/>
(859) 635-5762HI DJ,

You can configure a system w/ tower, power supply, Q6600, 2 gigs ram
160 gig OS, 320g audio drive, Geforce 8600GT dual head video (fan less),
DVD burner, XP Pro, 1 yr warranty, life time tech support for \$1437.00.
We will putting out a sub \$1000 in a week or so sense we Americans is so
poor. :)

Our overseas sales have went thought the roof lately. :) We don't cover
any shipping with our warranty for overseas systems just life time
phone/email support. But even with them paying the shippings with a
warranty issue of some sort it is still less money that buying it in
their country. jeez.

The overseas sales that always make me laugh are the ones we get from
Taiwan, Hong Kong and India.

Chris

(859) 635-5762Hi Paris guys and gals,

Anybody know much about this product announced at the Winter NAMM . E-MU
had two other similar products the 0202 and the 0404 but I like this one
better for my purposes.
<http://www.emu.com/products/welcome.asp?category=610>

It's a two channel USB powered audio interface that I think will work great
with my laptop and Sonar Cakewalk Home Studio sequencer/audio application.
Is the A/D and D/A decent? I only need 16 bit, 44.1K.

The 0404 can be bought at my local Guitar Center for \$99 even though it's
listed on the E-MU site for \$199. The 0202 can be ordered via SweetWater,
zZounds, Muscian's Friend for \$129. The new E-MU Tracker Pre is listed for
\$149 and comes with a large bundle of software. The local GC and Sam Ash
are not going to carry the 0202 or Tracker Pre but said they could special
order it. So far I've found no one selling the
